

Dear Friend,

As your Representative, I've never forgotten who I work for. I will work to continue expanding our economy, improving our schools, securing the border and lowering taxes. I will work hard to put what is best for our district and the state of Texas ahead of any agenda.

I've worked to craft bipartisan solutions that work for all Texans, and it begins with a 5-star education system. We replaced the TAKS test with end of the year exams, ensured the safety of our children by putting seatbelts on all buses, increased funding for our schools and gave our teachers a well-deserved pay raise.

As Chairman of Natural Resources, I will lead the effort to ensure Texas can meet our future water needs and maintain our junior water rights.

Southeast Texas has made tremendous progress but we still have more work to do and with your help I'll continue to fight for you. To get involved visit www.HamiltonforTexas.com.

PROTECTING HOME OWNERSHIP

Mike Hamilton is a conservative with a proven track record of protecting home ownership, voting for the largest property tax cut in Texas history and supporting a 5% homestead appraisal cap. He knows we won't have lasting property tax relief until we reign-in runaway appraisals.

IMPROVING PUBLIC SCHOOLS

Mike Hamilton is committed to giving the next generation the tools they need to succeed. He led the way in replacing the TAKS test with end of the year exams that ensure our children are learning in every subject. Mike authored the bill that requires seatbelts for our school buses so our children can travel safely to school and voted to give teachers a pay raise.

PROMOTING ECONOMIC OPPORTUNITIES

Mike Hamilton will continue to work hard to protect your tax dollars. He knows that low taxes help create jobs in Southeast Texas. Mike will continue to fight to improve transportation for our region and encourage both large and small companies to relocate or expand in Southeast Texas.

SECURING OUR BORDER

Mike Hamilton knows you can't have Homeland Security without Border Security. Texas can't wait until the federal government gets its act together to take steps to secure our border. Mike will fight for Texas to take bold steps to stop the flow of crime and drugs across our border and he supports supplying our border sheriffs with more resources and new, smart technology to supplement the important work of our border patrol.
